

Walk with the wind

Takt: 4/4
Tempo: 110

C G a F

Coming from a town in the west,

C G a F

I'm looking for a place for to rest.

C G a F

Going down the street all alone,

C G a F

there is no place that - I would call home.

/: So I walk on, I'm a feather in the wind. I walk with the wind:/

Remember all the places I have been, the rivers, mountains, valleys that I have seen.

Thinking of the friends that I've made, I had to leave them, I couldn't wait.

People say it's time to come round, I've got to find a place to settle down. Poor folks, they just don't understand, I've got to ramble round till the end.
